Profile

Lead PHP Web Developer with over 14 years of experience, I have successfully delivered a wide range of projects, from developing complex web applications to creating high-performance mobile applications. My career reflects a blend of technical expertise and interpersonal skills that enable me to tackle challenges with precision and efficiency.

A passionate self-learner, I possess strong analytical skills and a high level of focus, allowing me to quickly master new technologies and apply them to solve complex problems. My teamwork mindset and interpersonal abilities facilitate seamless collaboration with various stakeholders.

As a manager, I am recognized for my proactive approach, ability to coordinate teams, and commitment to achieving objectives. With a rigorous and structured methodology, I am dedicated to delivering high-quality solutions that meet business needs while adhering to deadlines and expectations.

Employment

Aug 2021 - Present

Full-Stack PHP Development Lead | Laminas/MelisPlatform

TC Agency, Rabat

I led the development of a major project for Dekra France, facilitating the booking and administration of theoretical driving license exams. The platform, **le-code-dekra.fr**, includes a reservation website and a back-office system communicating via a REST API. I played a pivotal role in designing the database architecture and developing the application, ensuring project efficiency and coherence.

We implemented dedicated spaces for candidates and driving schools, enabling seamless tracking of bookings and registrations. To guarantee the project's quality and stability, we utilized tools such as **Ansible** for deployment automation, **GitLab CI/CD** for continuous integration and deployment pipelines, and **Flyway** for database migration management.

The integration of **SonarQube** for static code analysis and **Grafana** for performance monitoring ensured application reliability and quality. Additionally, we

employed **SitespeedIO** for automated performance testing, optimizing the system and identifying bottlenecks effectively.

Sep 2020 - Jul 2021

Web/WordPress Developer

ProInCom, Rabat

As a WordPress web developer, I managed the development and maintenance of several websites, handling both corrective and evolutionary maintenance. My responsibilities included designing, developing, and implementing solutions tailored to clients' needs, while ensuring the quality and reliability of the websites.

Feb 2019 - Jun 2020

Web/WordPress Developer

Cogitime, France (Remote)

In this first fully remote experience, I managed HTML/CSS integration as well as the development of the necessary themes and plugins for each project. My role was to design attractive and functional user interfaces while ensuring compatibility with web standards and best development practices. I worked closely with the team to translate client requirements into efficient technical solutions, all while maintaining a high level of quality and performance. My expertise in WordPress technologies allowed me to deliver tailored and innovative solutions for each project.

Oct 2017 - Dec 2018

PHP Fullstack Developer

ECALL-SERVICES, Rabat

Apr 2016 - Jun 2017

Senior Web Developer

XNUMERIK, Casablanca

Feb 2015 - Mar 2016

Web Developer

Yoopi, Rabat

Feb 2014 - Jul 2014

PHP/WordPress Developer and Trainer

ByteLance, Rabat

2013 - 2014

Microsoft / eBay Technical Support Advisor

Téléperformance, Témara

Feb 2012 - Jul 2013

Flash Developer / WordPress Web Developer

Nova production digital, Casablanca

2010 - 2012

Flash Developer - ActionScript 3

Kalimact, Rabat

Education

Sep 2022 - Jul 2024

Master's Degree: Computer Methods Applied to Business Management

Université Claude Bernard Lyon 1, Lyon

The primary objective of the program is to train professionals specialized in the engineering of enterprise information systems. MIAGE graduates are known for their open-mindedness, creativity, and adaptability to societal changes. The curriculum emphasizes a professional approach, providing tailored guidance that equips students to address modern business challenges, particularly in areas such as Business Intelligence (BI), while meeting the demands of effective management of their personal and professional careers.

Sep 2021 - Jul 2024

Computer Engineer: Software Engineering Design and Development

High-Tech, Rabat

The program aims to develop the skills required to design and maintain software

using advanced methods and tools while integrating principles of quality assurance, project management, and software ergonomics. Students gain expertise in information systems, distributed architectures, usability, and quality assurance, along with other essential aspects of the field.

Sep 2019 - Jul 2021

Specialized Technician: Software Development

ITAG, Témara

The program provides a solid foundation in applied computing, covering programming, database management, and information system design. Students gain practical skills in developing applications and websites, as well as project management, enhanced through professional internships.

Sep 2005 - Jul 2008

2nd Year: Physical Sciences

Faculté des sciences, Rabat-Agdal

The program offers an in-depth exploration of the fundamental principles of physics and their applications. During two years at university, I gained an understanding of the physical laws, theories, and key concepts. The curriculum included theoretical courses and laboratory work, covering subjects such as mechanics, electromagnetism, thermodynamics, and quantum physics. I developed skills in analysis, problem-solving, and critical thinking, which enhanced my ability in scientific research.

Jun 2005

Baccalaureate: Experimental Sciences

Lycée Ibn Rochd, Témara

Fundamental Training Focused on Experimentation and Understanding Scientific Principles. I gained a solid foundation in disciplines such as physics, chemistry, and biology, emphasizing hands-on experimentation and the application of scientific principles. This training equipped me with a strong analytical mindset and a deep understanding of natural sciences.

Skills

Programming Languages : HTML, CSS, JavaScript, PHP, C, Python, Java, Visual Basic

Frameworks and Libraries : Laminas(Zend), Melis Platform, Laravel, Flutter, jQuery, ReactJS, VueJs, Bootstrap, MaterializeCSS, SASS
